

## Root Canal therapy

Root Canal Therapy. Just hearing those words makes many people cringe. However, root canals are actually a procedure that enables patients to keep a tooth rather than have it removed, and there are many advances that have made this a faster, easier appointment. The new technology is incredible, and this procedure can now be completed comfortably in one hour.

At Cadillac Family Dental, we have been keeping up with these advanced techniques in order to provide the best treatment possible while making sure the patients are comfortable, and there's no need to travel out of town to a specialist. For more information or an appointment, call 231-779-2402. We'll help change the way you feel about root canal therapy!
